

Product Code . SEL-BLE-10068

Desiccator

Description

Desiccator

Desiccator are made of Polyethylene and Polycarbonate. These autoclave vacuum desiccators can hold vacuum up to 740 mm of Hg for 24 hrs. without any greasing. The top dome, moulded in rigid and transparent Polycarbonate, gives a crystal clear view of the desiccant placed inside. The lower part is made of Polypropylene. An Internal groove is provided on the flange to hold a silicon rubber a-Ring. Each desiccator for easy lifting. The tiny holes in the disc provide air troughs support to the dishes. The Polypropylene stopcock is fitted with a self lubricating PTF plug. This plug work three way vacuum creation, shutting off vacuum releasing. However porcelain discs are advisable in case of incandescent crucibles.

Size: 150MM, 200MM, 250MM.

We are leading manufacturers, suppliers of Desiccator for Biology Lab. Contact us to get high quality Desiccator for Biology Lab for schools, colleges, universities, research labs, laboratories and various industries.
