

Product Code . SEL-EELE-11091

Transformer Oil Set

Description

Transformer Oil Set

This set up will consists of following facilities:

- High voltage transformer manufactured with appoxy casted.
- Oil cup provided with go and no-go gauses.
- It can be operated Manual/ Motorized.
- Input 1 ph 220V and output 0-60KV/100/KV with set brakedown voltag.
- Built in control circuit and production circuit duly wired.
- Built in Power on Indicator trip status indicator.

We are leading manufacturers, suppliers of Transformer Oil Set for Electronics Engineering Lab Equipments. Contact us to get high quality Transformer Oil Set for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
