

**Product Code . SEL-EELE-11143**

## Transmission Line Trainer

### Description

---

#### Transmission Line Trainer

#### Specifications:-

- Impedance Matching Resistance : 0 – 100W.
- Test generators : Sine wave, Square wave.
- Transmission line : Coaxial Cable.
- Interconnections : Banana sockets.
- Test point : 10.
- Measurement of line properties.
- Measurement of line attenuation.
- Frequency characteristics of line.
- Input impedance of the line.
- Measurement of stationery waves.

- 
- Power source : 220 ~ 230V AC, 50Hz, 1 Phase.

We are leading manufacturers, suppliers of Transmission Line Trainer for Electronics Engineering Lab Equipments. Contact us to get high quality Transmission Line Trainer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
