

**Product Code . SEL-EELE-11150**

## RFID Trainer

### Description

---

#### RFID Trainer

#### Technical Specification:-

- Modulation Type : ASK.
- Operating Range : Less than 10 cm.
- Operating Frequency : 13.56 MHz.
- Protocol Support.
- Application Software : This programme helps the students to understand the attendance records by using RFID technology.
- Supply Voltage : 3.3 V for controller and Reader, 5 V for LCD display.
- Micro Controller : 89C51 ED2 with 256 KByte RAM and 64 KByte ROM.
- Antenna : Inductively coupled coil type.

- 
- Power Supply : 230 V  $\pm$  10%, 50 Hz.
  - Dimension (mm) : W365 ´ D 265 ´ H 120.
  - Fuse : 250 mA.

We are leading manufacturers, suppliers of RFID Trainer for Electronics Engineering Lab Equipments. Contact us to get high quality RFID Trainer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
