

Product Code . SEL-EELE-11162

PA (Public Address) System Trainer

Description

PA (Public Address) System Trainer

The whole circuit of public address amplifier is explained section wise in the manual. A manual having practical detail is provided with the trainer. The complete circuit of a public address amplifier is printed on a single PCB. All part are soldered on PCB. Explanation, Observation, Alignment and adjustment of internal and external control possible due to single PCB. Easy identification of different parts is possible at a glance.

Easy measurement of voltages and observation of waveforms at any point. Also typical voltages and waveforms are provided.

Technical Specifications:-

- Amplifier with two mic.inputs.
- One mic. & One Aux. inputs.
- Signal to noise ratio : 60 dB.
- Frequency response :100 Hz to 15000 Hz.

- Power supply : 220VAC 50 Hz.
- Power Output : 80 Watt RMS Max.
- Tone control : Bass, Treble.
- Audio Monitoring Indicators.
- Output Tap for speaker matching : 4,8 &16 Ohms.
- Good Quality, reliable terminal/sockets are provided at appropriate places on panel for connections / observation of waveforms.
- Strongly supported by detailed Operating Instructions, giving details of Object, Theory, Design procedures, Report Suggestions and Book Reference.
- Weight :16 Kg. (Approx.).

We are leading manufacturers, suppliers of PA (Public Address) System Trainer for Electronics Engineering Lab Equipments. Contact us to get high quality PA (Public Address) System Trainer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
