

Product Code . SEL-EELE-11171

Single Phase Transformer Lab

Description

Single Phase Transformer Lab

The product is represented in such an easy way so that each test can be studied differently in proper sequence. Single Phase Transformer Lab is an elite training system for the Electrical laboratories. The product helps you to get fully acquainted with the basic concepts and functioning of a Single-phase Transformer. The Lab practically expertises you in exercises like Polarity, Turns Ratio, Transformation Ratio, Iron Loss, Copper Loss, Efficiency etc. The varied scope of learning makes the subject understanding complete.

Features:-

- Stand alone operation.
- Terminals are provided in different sections.
- R-Core Transformer.
- Exclusive and rugged designed panel.
- Designed by considering all the safety precautions.

-
- High quality meters.
 - Diagrammatic representation for the ease of connections.
 - Provided with an extensive e-manual.

We are leading manufacturers, suppliers of Single Phase Transformer Lab for Electronics Engineering Lab Equipments. Contact us to get high quality Single Phase Transformer Lab for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
