

**Product Code . SEL-EELE-11176**

## Scott Connection Trainer

## Description

### Scott Connection Trainer

Designed by considering all the safety precautions. Main and Teaser Transformers are shown separately. Stand alone operation. Exclusive and attractive designed panel. Two phase step down outputs available for waveforms observation on oscilloscope. On board high quality meters. Provided with an extensive e-manual.

### Technical Specifications:-

- Input : 415 V AC  $\pm 10\%$ , 50 Hz.
- Main Transformer.
- Input Winding : 0 – 200 V (50%)  $\pm 10\%$ , 50 Hz : 0 – 200 V (50%)  $\pm 10\%$ , 50 Hz.
- Output Winding : 0 – 230 V  $\pm 10\%$ , 50 Hz.

We are leading manufacturers, suppliers of Scott Connection Trainer for Electronics Engineering Lab

---

Equipments. Contact us to get high quality Scott Connection Trainer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
