

Product Code . SEL-EELE-11178

AC/DC Load

Description

AC/DC Load

The device comes with On Board Switches, so that one can vary the load as required, in steps of 100W. AC/DC Load is an important device in all the Electrical laboratories. One can connect a load upto 1.2KW using this product.

Technical Specifications:-

- Load Type : Resistive (Lamp Load).
- Ammeter (MI) : 10A.
- Mains Supply : AC / DC, 230V $\pm 10\%$.
- Load Range : 0 – 1.2 kW, in steps of 100W.
- Dimensions (mm) : 450 W ´ 600 D ´ 450 H.

We are leading manufacturers, suppliers of AC/DC Load for Electronics Engineering Lab Equipments. Contact us to get high quality AC/DC Load for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
