

Product Code . SEL-EELE-11193

Basic Electronic Trainer

Description

Basic Electronic Trainer

Digital Circuits Module:

- Touch Switch and 4518 Counter.
- LCDM and Digital Display Circuit.
- BCD Adder and Sub-tractor.
- Mono-stable and Alarm Circuit.

Basic Electric Circuits Module:

-
- Voltage Follower and Comparator.
 - Zero Crossing Detector.
 - Diode and Transistor Switch.
 - Inverter and Inverter / Non Inverter OP Amp.
 - Photoelectric controller.

Waveform Generator Module:

- Delay Turn Off Circuit.
- OPA Astable Multi-vibrator.
- Schmitt Trigger and Sparkling Lamp.
- 555 Delay Circuit and Astable Multi vibrator.
- TTL and OPA Crystal Oscillator.

We are leading manufacturers, suppliers of Basic Electronic Trainer for Electronics Engineering Lab Equipments. Contact us to get high quality Basic Electronic Trainer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
