

Description

Applied Thermodynamics

Specifications:-

- Plate Heat Exchanger.
- Shell & Tube Heat Exchanger.
- Water-to-Air Heat Exchanger Trainer.
 - Heat Exchanger Supply Unit.
 - Tubular Heat Exchanger.
- Jacketed Vessel with Stirrer & Coil.
- Heat Transfer in the Fluidised Bed.
- Trainer Tubular Heat Exchanger.
- Heat Transfer in a Tubular Heat Exchanger.
- Cross-Flow Heat Exchanger.
- Multipurpose Air Duct and Heat Transfer Unit.
- Trainer for Various Heat Exchangers.
 - Wet Cooling Tower.
 - Heat Transfer Bench.

We are leading manufacturers, suppliers
of Applied Thermodynamics for
Electronics Engineering Lab
Equipments. Contact us to get high
quality Applied Thermodynamics for
Electronics Engineering Lab
Equipments for schools, colleges,
universities, research labs, laboratories
and various industries.

School Educational Instruments,
Hargolal Road, Ambala Cantt, Haryana
