

Product Code . SEL-EELE-11256

Contactor Set

Description

Contactor Set

This set consists two contactors with a mechanical interlocking and two additional groups of contacts used for electrical interlocking. Low cost controller designed to start/stop a generator manually and remotely. Provides external voltage adjustment feature. Generator protection, built-in alarms and warnings.

Features:-

- Includes mechanical interlocking.
- Additional NC and NO contact groups for electrical interlocking.
- Silver-faced switching contacts.
- DIN rail mounting.
- 3 electric poles per contactor.
- 1-3 phase connection support.

-
- Solenoid coil voltage: 230V or 120V 50-60Hz depending on a solenoid coil type.

We are leading manufacturers, suppliers of Contactor Set for Electronics Engineering Lab Equipments. Contact us to get high quality Contactor Set for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
