Temperature Control Training System Stand

Description

Temperature Control Training System Stand

Effects of different controller parameters and methods on the response of the closed loop system. Fundamentals of temperature control system. Open loop control response.

Technical Specifications Required:

- Aluminium heated bar.

- Peltier element.

- Basic Unit with USB Port.

- Fan with flow rate: 40m³/h.

- Temperature sensor: 0...100°C.

- Thermometer: 0...100°C.

- P, PI, PID and switching controller Software.

We are leading manufacturers, suppliers of Temperature Control Training System Stand for Electronics Engineering Lab Equipments. Contact us to get high quality Temperature Control Training System Stand for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
