

Product Code . SEL-EELE-11263

Universal Application Simulator

Description

Universal Application Simulator

Technical Specifications Required:

- Running lights.
- 8 digital inputs (actuators).
- 20 digital outputs (sensors).
- Analog inputs (actuators).
- Analog outputs (sensors).
- Connections realized on 4mm safety sockets.
- Connector (input signals) for the connection to PLC via system connector.
- Socket (output signals) for connection to the PLC via system connector.

-
- Operating voltage: DC 24V.

We are leading manufacturers, suppliers of Universal Application Simulator for Electronics Engineering Lab Equipments. Contact us to get high quality Universal Application Simulator for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
