

Product Code . SEL-LG-11357

Beakers Euro Design

Description

Beakers Euro Design

Pouring an answer becomes terribly convenient as a result of its tapered spout.

These autoclavable Beakers Euro Design have conspicuously raised graduations on the outer surface.

Beakers Euro Design are moulded in polypropylene, have excellent clarity and extremely sensible chemical resistance.

We are leading manufacturers, suppliers of Beakers Euro Design for Laboratory Glassware. Contact us to get high quality Beakers Euro Design for Laboratory Glassware for schools, colleges, universities, research labs, laboratories and various industries.
