Product Code . SEL-LG-11401

Kjeldahl Flask

Description

Kjeldahl Flask

Made of Borosilicate Glass.

Heat resistant.

Chemical resistant.

Used for the Determination of Nitrogen.

- Capacity: 50mL, Socket Size: 19/26, Height: 200mm.

- Capacity: 100mL, Socket Size: 19/26, Height: 200mm.

- Capacity: 300mL, Socket Size: 24/29, Height: 295mm.

- Capacity: 100mL, Socket Size: 24/29, Height: 200mm.

- Capacity: 500mL, Socket Size: 24/29, Height: 300mm.

- Capacity: 800mL, Socket Size: 24/29, Height: 340mm.

We are leading manufacturers, suppliers of Kjeldahl Flask for Laboratory Glassware. Contact us to get high quality Kjeldahl Flask for Laboratory Glassware for schools, colleges, universities, research labs, laboratories and various industries.
