

Product Code . SEL-EELE-11160

Mobile Phone Trainer

Description

Mobile Phone Trainer

Technical Specifications:-

- Output Power : +5V, +33dBm/32mW, 2W.
- Channel Spacing : 200 KHz.
- Cellular System : EGSM/GSM 900.
- Rx Frequency Band : EGSM 925, 960MHz: GSM 900, 935, 960MHz.
- Tx Frequency Band : EGSM 880, 890MHz: GSM 900, 890, 915MHz.
- Antenna : Loop type, 50W.
- Display : 84 x 48 pixels.
- On Board sections : Antenna, Keypad, SIM, Charging Circuit, Clock, User interface such as Buzzer, Vibrator, LEDs.

-
- No. of test points : 54.

We are leading manufacturers, suppliers of Mobile Phone Trainer for Electronics Engineering Lab Equipments. Contact us to get high quality Mobile Phone Trainer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
