

Product Code . SEL-EELE-11267

## Controllable 3-Phase Power Supply

### Description

---

#### Controllable 3-Phase Power Supply

#### Technical Specifications Required:

- Output voltage: 3x 0...400V, 50Hz variable.
- DC output 0...250V.
- 4mm safety sockets.
- 1 Voltmeter 0...450V (moving iron instrument).
- 1 Ammeter 0...3A (moving iron instrument).
- 3 Phase control lights.
- 2 Measuring point selector switch.
- Protection: 3 thermo-magnetic device circuit breakers.

---

We are leading manufacturers, suppliers of Controllable 3-Phase Power Supply for Electronics Engineering Lab Equipments. Contact us to get high quality Controllable 3-Phase Power Supply for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
